■ 1 Year Limited Warranty

⚠️ WARNING

- Do not begin the installation of this product before you have read and understood all the instructions and warnings contained in this installation manual. If you have any questions regarding the instructions, please contact the reseller or QualGear support department via email at support@qualgear.com.

- This mounting bracket was designed to be installed and utilized ONLY as specified in this manual. Improper installation of this product may cause damage or serious injury.
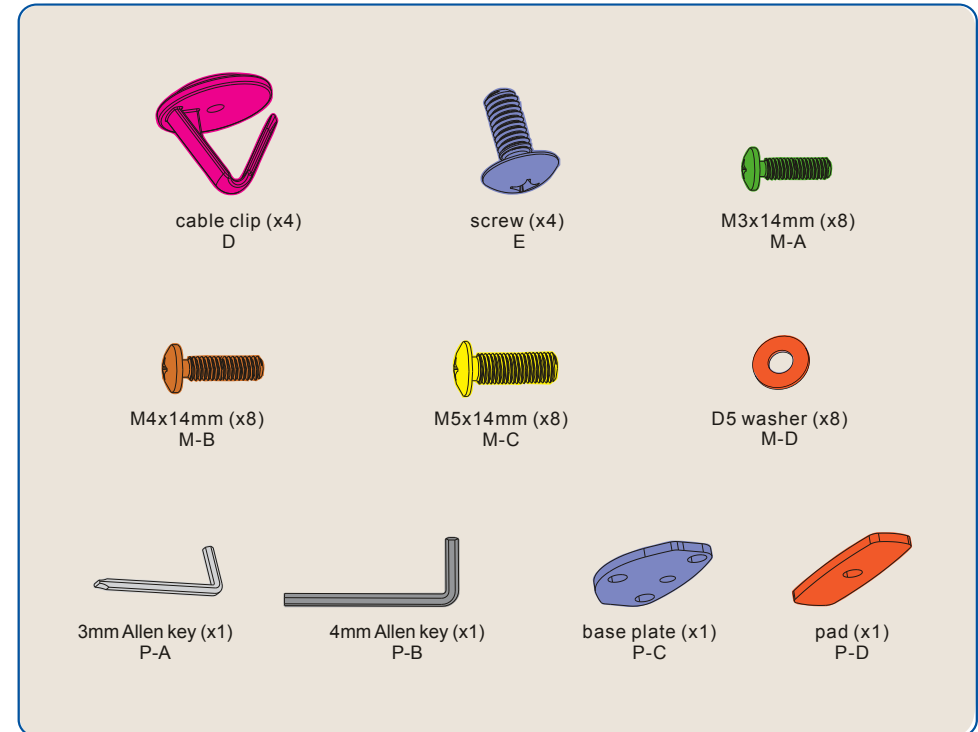

- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.

- This product should only be installed by someone, who has good mechanical ability with prior experience in installation and assembly of products and fully understands this manual.

- Always use an assistant or mechanical lifting equipment to safely lift and position the equipment.

- Tighten screws firmly, but do not over tighten. Over tightening can cause damage to the items. This greatly reduces their holding power.

- All QualGear products are intended for indoor use only and any outdoor use voids the limited warranty.

- All QualGear products are designed and tested for residential use only and any commercial use voids the limited warranty. For warranty information, please visit qualgear.com/warranty.php.
Parts Checklist

! **IMPORTANT:** Before starting installation, please check that all parts shown in this checklist are included. If any parts are missing or damaged, contact your local distributor or support@qualgear.com for replacement parts and do not start assembly and installation until you receive all the parts.

collar

loosen

P-A

P-A
tighten

Insert the pole (B) into the desk clamp (C) and tighten the screws using 3mm Allen Key (P-A).
To adjust monitor height, first loosen collar screws using 3mm Allen Key (P-A), then set the
collar at a desired position and tighten the collar screws using 3mm Allen Key (P-A).
4a Edge Installation

tighten
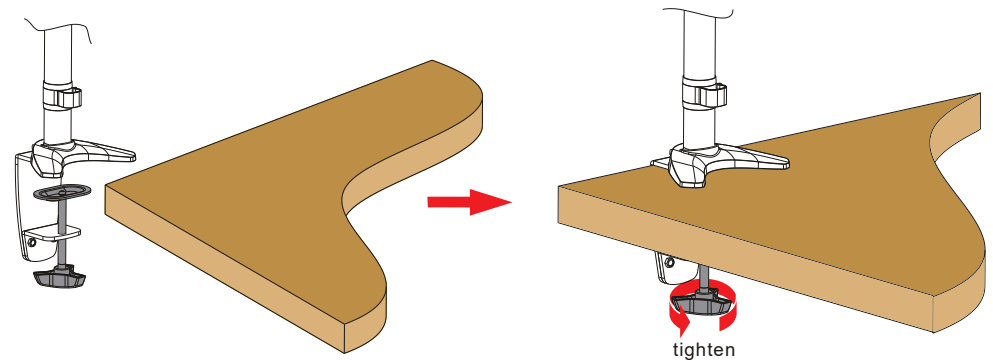

Turn the knob to make clamp fit to desk edge, then secure it tightly.

NOTE Min.desktop thickness=10mm(0.39")
Max. desktop thickness=90mm(3.54")

Disassemble the desk clamp and select the right parts for using grommet installation.
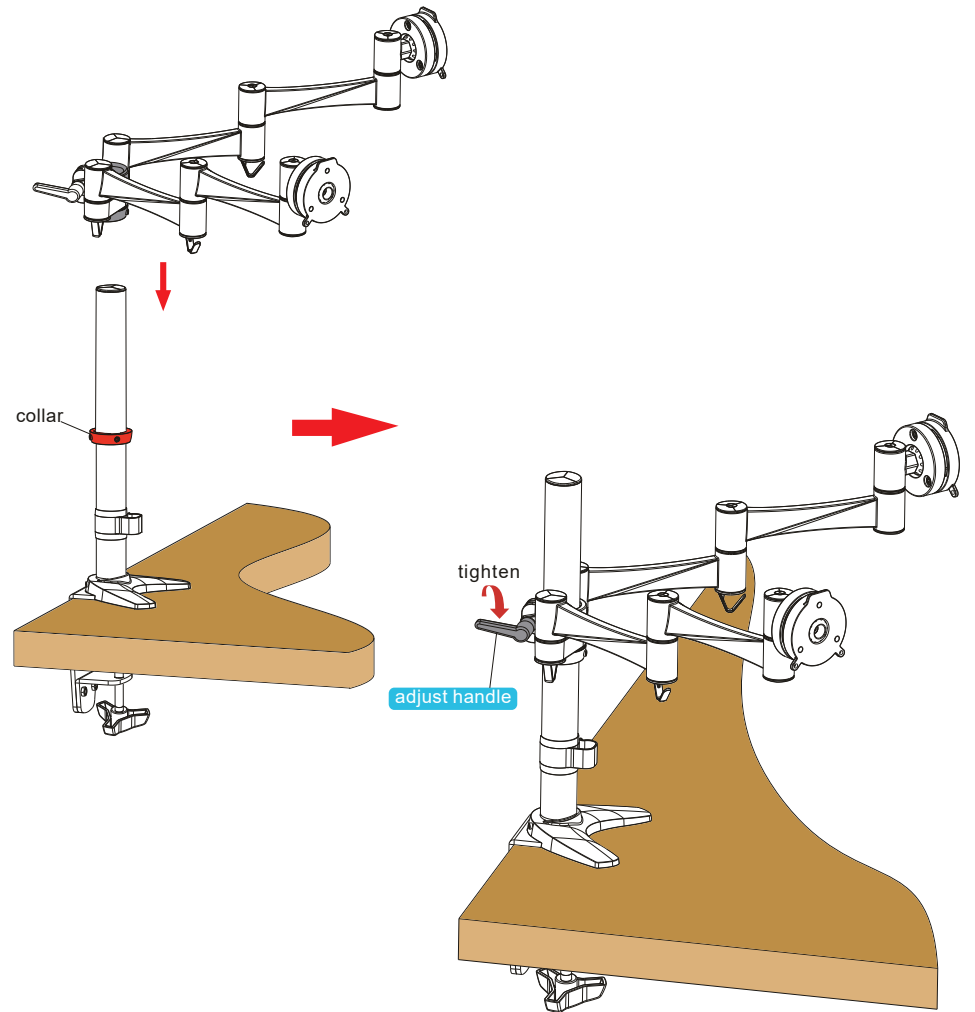

base plate
attach screw
silicone pad
P-B

Re-install the base plate with the three retained screws, and then tighten securely using a 4mm Allen Key (P-B). Then attach silicone pad for each screw.

pad

long screw

Insert the long screw into the base plate through the hole and pad (P-D) as shown above. Then tighten the long screw to hold the mount securely.

NOTE Min. hole diameter =10mm(0.39")
Max. hole diameter =70mm(2.76")

collar

tighten

adjust handle

Insert the articulated arm assembly into the pole until it touches the collar. Then tighten the adjust handle.

NOTE Plastic handle can be pulled out due to limited amount of space.

⚠️ **WARNING**

● Tighten all screws but do not over tighten.
